Association

## About the meeting:

The Quality Symposium is a combination of three Quality Initiatives at Kentucky Hospital Association (KHA).

- **Kentucky Institute for Patient Safety and Quality (KIPSQ)** will hold PSO members only Safe Table event focusing on Health IT related to copy and paste and utilization of a toolkit for your hospital.
- **The Kentucky Hospital Improvement Innovation Network (K-HIIN)** will focus on data measures, new quality initiatives to improve patient safety and peer group panel discussion.
- **AHRQ Safety Program: CAUTI/CLABSI**-The Kentucky Hospital Association is hosting a one-day program addressing critical topics for quality leaders to strengthen your QI program and improve your CAUTI/CLABSI measures.

## Who should attend:

**KIPSQ Member hospital ONLY:** CEOs, CNOs, COOs, Legal, Risk Managers, Quality Directors and IT Directors.

**K-HIIN committed hospitals:** Project team leaders, Hospital administrators including CNOs and CMOs, Performance improvement and quality directors, Infection prevention staff, Risk managers, Nursing, pharmacy, respiratory therapy, social services/discharge planners and medical staff.

**AHRQ Safety Program:** CAUTI and CLABSI Team Leads and team members, and any member of your interdisciplinary CAUTI/CLABSI team including ICU leaders, Infection Preventionist, senior leaders, front-line staff, and physician champions.

## Objectives:

### KIPSQ

- Provide a mechanism to make copy and paste easily identifiable.
- Identify technologies, practices and procedures for Health IT.
- Discuss the potential harms of copy and paste.

### K-HIIN

- Discuss how cross-cutting strategies can improve care outcomes in several adverse event areas
- Describe methods for analyzing data for HIIN measures

- List 3 steps to implementing a successful Antimicrobial Stewardship Program in your hospital
- Discuss current efforts in Kentucky to improve health equity
- Identify ways to examine readmissions data to identify trends upon which the hospital can have an impact
- Discuss strategies used in care transitions “communities” in Kentucky to reduce readmissions and fill in resource gaps

### AHRQ CAUTI/CLABSI

- Identify three actions your hospital can take in the next month to improve teamwork, communication, and adherence to CAUTI and/or CLABSI best practices.
- Describe types of catheter occlusion and how this relates to CLABSIs.
- Review how to identify, prevent, and manage catheter dysfunction.
- Discuss current guidelines and practices for reducing CLABSI rates.
- Review the difference between clinical and surveillance (NHSN) definitions.
- Relate safety culture and crucial conversations to assigning HAI status to an infection.
