About the Conference

Suicide takes life without regard to age, income, education, social standing, race, or gender. Overall, suicide is the 10th leading cause of death for all Americans, the 2nd leading cause of death for adults ages 25-34, and the 3rd leading cause of death for youth ages 15-24. In Kentucky, suicide is the 11th leading cause of death. On average, one person dies by suicide every 12 hours in Kentucky.

Keynote Presentation: Intersection of Opioid Misuse and Suicide

Dr. Quinlan is a senior research associate at Education Development Center, serving as an epidemiologist for SAMHSA's Suicide Prevention Resource Center. In this role, she works across state suicide prevention systems to build their evaluation capacity and infrastructure for data collection, and to locate and analyze existing data.

Access for Individuals with Disabilities

We wish to take reasonable steps to ensure no individuals with disabilities or those who are deaf or hard of hearing are discriminated against because of the absence of auxiliary aids and services.
