KHA Solutions Group Partners with MAKO Kentucky for your COVID-19 Testing

Testing is a key component of the phased approach for the safety of both patients and health care professionals. Adequacy of testing is necessary to resume elective procedures. MAKO Kentucky is focused on hospital testing. Kentucky's hospitals need access to reliable and faster test results for their inpatients, outpatients, and staff to ensure safety protocols are in place.

Why KHA Solutions Group has chosen to partner with MAKO Kentucky

MAKO Kentucky's COVID-19 test is FDA approved.

MAKO has reserved capacity, specifically for Kentucky Hospitals, to help hospitals have access to highly reliable testing with a rapid turnaround. Hospital testing is MAKO's priority.

MAKO Kentucky is accredited by the College of American Pathologists (CAP).

Located in Lexington, MAKO Kentucky's focus is on offering the fastest possible turnaround time on PCR COVID-19 testing.

With MAKO Kentucky, Kentucky Hospitals get:

- *Faster Test Results*
- *Greater Reliability*
- *Reserved Testing Capacity*
- *100% Transparency*
with pricing that is less than the CMS Reimbursement Rate

(continued) >>

**RAPID
TURNAROUND TIME**

MAKO maintains a
24 to 36 hour
turnaround time for
all COVID-19 testing.

SOLID SUPPLY CHAIN

MAKO maintains stock of collection kits with ten sources under contracts. Test kits are available with an intact supply chain. MAKO is designated as a preferred partner of ThermoFisher, therefore, MAKO will receive priority service for reagents and laboratory supplies.

FDA APPROVED

The MAKO COVID-19 test is FDA approved under ThermoFisher’s EUA. MAKO successfully completed studies with the North Carolina State Health Laboratory and American Esoteric Laboratories. MAKO received 100% reconfirmation and no discordance in the results.

BEGIN IMPLEMENTING TODAY!

If you want to begin testing today, please contact
Bart Spinks of MAKO Kentucky via bart.spinks@makomedical.com
or phone (937) 321-5001 to quickly receive the draft agreement language for your review and execution with MAKO.
Or if you have other questions, Pam Kirchem of KHA Solutions can be reached directly at (505) 220-8430.

AVAILABLE NOW FOR BUSINESSES

**SARS-CoV-2 IgG
Antibody Testing**

Get a head start on getting your employees back to work.

MAKO Kentucky is currently offering businesses across the country a major competitive advantage coming out of the COVID-19 crisis: SARS-CoV-2 IgG testing, the complete back-to-work solution. As a full service CAP-accredited lab, we do the screenings, we run the tests, we provide the results. And most importantly, we can get your business moving again — quickly.
