

# VISION TECHNOLOGY - ELECTRONIC MAGNIFIERS

## FREEDOM MACHINE DESKTOP VIDEO MAGNIFIER

- Magnification: 1.3x to 85x (depends on monitor)
- LED illumination lasts up to 100,000 hrs
- Non-glare glass optics for a vivid image
- 1 knob controls up/down, backward/forward & tilt
- XY Table working area: 14 x 13 inches

It's great for reading the newspaper or your favorite novel, viewing the mail or family photos, writing out bills or doing this week's crossword puzzle.

- 357002 - 17" Monitor**
- 357003 - 19" Monitor**
- 357001 - 22" Monitor**
- 357004 - 24" Monitor**
- 357005 - 26" Monitor**
- 357006 - 28" Monitor**

**EASY  
TO USE!**

## SELECT TM - TABLETOP VIDEO MAGNIFIER CCTV

- 2x-65x magnification
- Desktop, distance and mirror viewing with XY table organizer
- Images: true color, enhanced black on white and reverse white on black
- Monitor uses an adjustable arm for comfortable use

**357365 - 19" Monitor**

## INSIGHT VGA 900 SYSTEM

- Use your computer as a CCTV
- Magnifies 5x - 75x on a 17" monitor
- Picture in Picture (PIP) view
- VGA, SVGA and XGA compatible
- Computer and monitor not included

**358890**

## INSIGHT COLOR AUTO FOCUS CCTV WITH MONITOR

- Magnifies up to 60x
- 3 viewing modes: true color, enhanced black on white & reverse white on black
- Ultra long life 100,000 hour LED
- 3 Year manufacturer's warranty

**325419W - with 19" monitor**  
**3254223 - Camera Only**

Has VGA, composite/S and RCA video inputs and can be used with television computer monitor or LCD TV.

## THE VIEW PORTABLE CCTV

- View almost anything close up or far view including books, newspapers, TV, chalkboards etc.
- Color, enhanced black on white & enhanced white on black viewing modes
- Pop-up design, weighing only 14 lbs.
- Auto-focus
- 100,000 hour LED lighting

**358439**

**358451 - Battery and charger**

**358453 - Additional Battery**

**358462 - Soft Carrying Case**

**358843 - Hard Carrying Case**

## PRO SERIES CCTV FLAT SCREEN MAGNIFIER

- Top-rated picture quality
- Clear, easy-to-operate controls
- Great for students, professionals and seniors
- 2x - 65x on 19" monitor

**354219**

## PREMIER DESKTOP VIDEO MAGNIFIER

- Classic reading machine
- 2.0x-65x Magnification
- Compatible with any screen size
- Soft push button, backlit controls
- Picture mode for enhanced viewing of images

OBRIRA SPECTACLE-MOUNTED GALILEAN TELESCOPES:  
DISTANT TASKS MADE EASY

Obrira Spectacle-Mounted Galilean Telescopes are designed for distance tasks such as watching television, going to the theater or attending sporting events. They are available in 1.8x, 2.1x or 2.5x magnification. Optional reading caps are available in +3.00 to +16.00 Diopters for near and intermediate tasks. The new Low Vision Evaluation Kit helps eye-care professionals quickly and accurately evaluate patients and provide the best solution to meet their needs.

Fastener Rings & Carrier Lens (for Galilean Telescope):

Item#	Fastener Rings
607110	Fastener Ring
607111	for Rx Lens
607112	for Rx Lens (Spherical)
607113	for Rx Lens (Cylindrical)
607114	Carrier Lens

Reading Caps:

Item#	Diopter
607107-3	+3.00
607107-4	+4.00
607107-5	+5.00
607107-6	+6.00
607107-8	+8.00

Telescopes:

Item#	Power
607102	1.8x
607103	2.1x
607104	2.5x

Custom System Mounting available for an additional charge.

OBRIRA FRAMES & LEATHER CASE:

Frames 50/17 - Gold (Small) - 607115  
Frames 50/17 - Silver (Small) - 607116  
Frames 52/17 - Gold (Medium) - 607117

Frames 52/17 - Silver (Medium) - 607118  
Frames 54/17 - Gold (Large) - 607119  
Frames 54/17 - Silver (Large) - 607120  
Leather Case for Frames - 607121

LOW VISION EVALUATION KIT (ITEM # OBR-KIT):  
(Complete test set for monocular & binocular low vision evaluations.)

3 Frames (One each of the 50/17, 52/17 & 54/17 sizes)  
6 Galilean Telescopes (One pair each of 1.8x, 2.1x & 2.5x magnification)  
6 Fastener Rings (One pair each of 200mm, 250mm & 330mm)  
9 Reading Caps (Two each of +3.00, +4.00 and +5.00 Diopter caps & one each of +6.00, +8.00 & +10.00 Diopter caps)

OBRIRA MAGNIFYING LOUPES  
PRECISION OPTICS FOR NEAR TASKS

Obrira Magnifying Loupes were specially designed to enable medical, dental and industrial professionals to utilize magnification for extended periods of time without fatigue. Obrira Magnifying Loupes offer 2.3x magnifying power. The focal length is set at 250mm (10 inches), a comfortable working distance for normal vision. Optional lens caps increase the working distance to 370mm (15 inches) or 550mm (22 inches). The pupil distance is adjustable for customization to each individual user. The soft nosepiece rests comfortably on the bridge of the nose. Hooked earpieces prevent loupes from falling off when the user's head is tilted downward. Choose either a matte gold or chrome finish.

Magnifying Loupes Accessories:

Magnifying Loupe (Chrome plated) - 607101  
Magnifying Loupe (Gold plated) - 607100  
Caps for extended working distance (15") - 607105  
Caps for extended working distance (22") - 607105-1  
Adapter for Rx lenses (without lenses) - 607106

EYE-SNAP TALKING READER  
COMPLETE ACCURATE READING SYSTEM FOR THE BLIND

- Hear books and other text read out loud to you
- Begins capturing/reading 2 pages of a book at a time in 4 seconds
- Choose male/female voice and adjust voice speed
- Accommodates documents up to 8.5" x 14"
- Includes camera and oversized, easy to use keypad

READ 2 PAGES  
AT A TIME!

The Eye-Snap Reader is a complete reading system that captures an image of printed text using the included camera and reads it back to you. It's easy to use and offers outstanding sound quality along with the industry's highest megapixel camera, assuring superior accuracy.

The user simply places the printed document on the built-in table, and the Eye-Snap quickly (in approx. 4 seconds) captures an image of the text and begins to read it out loud. The Eye-Snap accommodates up to 8.5" x 14" documents and captures/reads two pages at a time of a hard cover or paperback book. Use it to read bills, mail, magazines, books and other multiple-page documents, newspapers and other larger-format materials.

The included Keypad features large tactile buttons that allow the user to: START scanning/capturing a document; PAUSE and later resume reading (ex. when the phone rings); MODE - Adjust to reading a document in column and or tabular (i.e. letter vs. phone bill). A combination of buttons also allows for speaking voice preference (male or female) and reading speed (slower or faster). The keypad plugs into the unit via a USB port, so it does not require batteries.

803938 - Basic

803934 - Plus - Storage Capability (20 pages)

803936 - Unlimited - Unlimited Storage Capability

803930 - Low Vision - Includes 19" Monitor (View text magnified to 18x with font color choices)

ULTIMA ELECTRONIC MAGNIFIER AND TALKING READING MACHINE  
THE ULTIMATE COMBINATION ALL IN ONE! CCTV AND TALKING READING MACHINE

- Magnifies text and photos up to 18x
- Scans and reads text aloud to you
- Identifies currency denominations
- Touch screen and keypad navigation
- Simple 4-button keypad
- Scanner bed fits up to an 8.5 x 11 sheet
- Includes 17" monitor
- One-Year Manufacturer's Limited Warranty

MAGNIFIES DOCUMENTS  
UP TO 18x & READS  
TEXT ALOUD

Loaded with features, yet simple to use, Ultima is the most advanced and accurate Electronic Magnifier and Text-to-Speech Reader available today. It magnifies print and photos up to 18x, scans, reads text aloud with an impressive 99 percent accuracy and even identifies US currency. Plus, with both a touch screen and keypad controls, navigation couldn't be easier.

MAGNIFICATION MODE:

In magnification mode, you can use the touch screen to zoom in (increase magnification) or pan (move around the document or photo) to examine it more closely. By simply touching the lower right part of the screen, you can then resume the original size view.

You may magnify the image size anywhere from 2x up to 18x and adjust the brightness. You may also choose from multiple combinations of text and background colors for optimum contrast and superior image clarity. Customize the view to your ideal comfort and preference

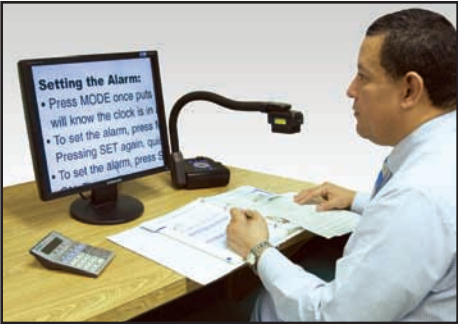

READING MODE:

In the reading mode, Ultima uses the highest quality text-to-speech technology to read text aloud with an accuracy rate of 99 percent. It can even identify US currency.

# NEW PRODUCTS FROM GUERILLA TECHNOLOGIES

## EYE-FLEX ELECTRONIC MAGNIFIER FOR LOW VISION

SEE NEAR

SEE FAR

BOTH FAR  
AND NEAR  
MAGNIFICATION

- 1x to 100x magnification
- Three (3) viewing color options
- Capture & store up to 80 images/documents
- Goose-Neck design provides the ability to bend/shape stand into any configuration
- Includes remote control and carry case

Replace your old CCTV with the affordable Eye-Flex Electronic Magnifier, the next generation in magnification for those with low vision. This lightweight, space-saving Low Vision Display Unit is packed with features, starting with 1x to 100x magnifying power and a large, extra-clear 19" or 24" color monitor. The gooseneck base can be easily adjusted into the ideal position to suit your needs. Capture/store up to 80 images and view them as a slideshow. A remote control is included for maximum convenience and ease of operation.

**350123 - 19" Monitor**

**350124 - 24" Monitor**

### SYSTEM FEATURES and FUNCTIONALITIES:

- The system comes standard with a 19-inch monitor (optional 24" HD monitor available)
- Magnification from 1x to 100x
- The Highest Definition/Clarity available
- Goose-Neck design provides the ability to bend/shape stand into any configuration
- Camera (3.2 lens) can easily be moved to take pictures, capture documents at a distance, etc.
- Freeze/Real Time capture
- Storage of up to 80 images/documents
- Picture/document slide show mode
- Simplistic remote control operation
- Ability to pan directly from remote and read a document
- Three (3) viewing color options
- Easily transported as unit weight is approximately 5-lbs (minus monitor)
- Includes a Place- Mat which identifies proper setting/location for desired size document
- Carry case included
- 5-year support/warranty for EYE-FLEX unit

## EYE-SCAN TALKING READER

HEAR TEXT  
& IDENTIFY  
CURRENCY

- Scan text up to 8.5" x 11" and hear it read back to you
- Identifies US & Canadian paper currency
- Choose male/female voice & adjust voice speed
- Begins reading a page at a time in 10-12 seconds
- Oversized, easy to use keypad

**803937 - Basic**

**803933 - Plus - Storage Capability (20 pages)**

**803932 - Unlimited - Unlimited Storage Capability**

**803931 - Low Vision - Includes 19" Monitor**

## THE RAVE TEXT-TO-SPEECH READING MACHINE

FOR NEAR  
VIEW AND  
DISTANCE

- Portable Mini stand-alone camera
- Fixed and Distance viewing
- Stand for camera with document guide
- Auto Focus
- Weighs only 1.5-lbs (camera & stand combined)
- Includes camera & stand; laptop or netbook sold separately

**807283**

## BËSSËR EUROMAG OPTIK

- Full Range of Premium Illuminated Handheld & Stand Magnifiers
- High Quality Precision European Optics
- Superior "No Glare" Illumination

**Now Available for Dispensing by

We are now the exclusive distributor of **ZEISS MAGNIFIERS** 

## MAGNIFIERS AND LOUPES

### ZEISS VISULOOK CLASSIC ASPHERIC HAND MAGNIFIERS

- Comes with hard protective coating
- Display the largest possible diameter for their respective power
- Aspheric optical design is matched to the conditions in which it is used
- The hand magnifier is labeled with their refracting power

### ZEISS HEAD-WORN LOUPE L

- Head-worn loupe with binocular loupe component for stereoscopic near vision
- Also suitable for spectacle wearers
- Adjustable visor with lateral shielding blocks stray light

### ZEISS HEAD-WORN CLIP ON LOUPE LC

- Loupe clip with binocular loupe component for stereoscopic near vision
- Attaches to most prescription glasses
- Provides hands-free use in low magnification situations

### ZEISS APLANATIC-ACHROMATIC POCKET MAGNIFIERS

- Distortion-free image
- Anti-reflection coating
- Provides precise vision for industrial and low vision use

### ZEISS VISUCARD

- Aspheric microconstructed credit card size 3x magnifier
- Optic measures 2 1/4" x 1 15/16"
- Card measures 3 3/8" x 2 1/4"
- Vinyl cover included

## LOW VISION DEVICES

### GALILEAN SPECTACLE MOUNTED TELESCOPES

- Galilean Design
- Convertible to a "teleloupe" system by the attachment of clip-on lenses
- Appropriate magnification makes it possible for the user to identify close-up objects and to read standard print sizes

### KEPLERIAN SPECTACLE MOUNTED TELESCOPES

- Keplerian Design
- Designed to help people with low vision recognize objects in the distance
- A swivel mechanism of the clip-on lenses allows the wearer to switch rapidly from distance to near vision

### SYSTEM CARRIER

- Attractive design and modern material
- Pure titanium
- Silicone saddle bridge
- Temples are available in a hook type version or straight version with an elastic rear headband

### ZEISS MONOCULAR HAND TELESCOPES

- Continuous focusing from the distance into the near range offers outstanding flexibility
- Compact dimensions with large fields of view

PLEASE VISIT US ONLINE FOR OUR FULL LINE OF ZEISS PRODUCTS OVER 600 ITEMS!

High Quality Magnifiers and Loupes **ZEISS MAGNIFIERS** 

## MAGNIFYING VISUAL DEVICES FOR MEDICAL & TECHNOLOGY PROFESSIONALS

### TELELOUPE SPECTACLES GTX

- Must be fitted for each individual wearer by an eye-care professional
- Binocular, stereoscopic near vision for medical and technology use
- Systems are contained in mounting rings which are cemented onto glass or plastic eyeglass lenses fitting any prescription,
- Small size of the system allows good orientation to the surrounding field

### HEAD-WORN LOUPE KF TITANIUM

- Stereoscopic near vision in medicine and technology
- Kepler design and is mounted on the system carrier
- Available in various magnifications and working distances

### HEAD-WORN LOUPE KS

- Used for binocular, stereoscopic near vision in medicine and technology
- Kepler design and is mounted on the system carrier
- Available in various magnifications and working distances

## DIAGNOSTICS - FITTING DEVICES

### STANDARD FITTING SET

- Consists of material for determining and fitting low vision patients
- Contains Telescopic Spectacles, Visually Impaired and Near Vision Test Charts
- Also includes telescope system and clip-on lenses for determining and demonstrating distance and near magnification

### FITTING SET FOR TELELOUPE SPECTACLES GTX

- Allows the binocular demonstration of the GTX systems, taking into account each patient's accommodations
- Determines the actual working distance and prevents errors in the teleloupe systems
- Set includes 2 test holders, 2 GTX systems and storage case

### TEST CHARTS FOR LOW VISION

- Four successive sheets contain optotypes which are specially adapted for low vision
- Lateral thumb index allows the optotype size to be quickly selected
- Made of wear-resistant plastic with laminated, dirt-repellent covers

### BINOCULAR READING CHART

- Consist of a transparent test film with successive, three line text groupings of different sizes
- The charts permit binocular comparison of reading texts under binocular conditions
- Made of wear-resistant plastic with laminated, dirt-repellent covers

### NEAR VISION TEST CHART

- Seven sheets of reading texts in various sizes are provided
- The Near Vision Test Charts enable the determination of the patient's reading ability
- Made of wear-resistant plastic with laminated, dirt-repellent covers
